BG Controls wins performance award

Yorkshire company BG Controls has received a 'New Partner Performance' award from the international building controls manufacturer, Delta Controls.

BG Controls, which is based at Dinnington near Rotherham, received the Delta award in recognition of its outstanding performance and dedication to excellent customer service.

Delta Controls is a world leading developer and manufacturer of high quality native BACnet building automation systems.

The company appointed BG Controls as one of its specialist UK partners, only last year. Partners are responsible for the engineering, installation and maintenance of Delta systems and have been carefully selected based on strict performance and service criteria.

"We're delighted to have a synergy with a quality global brand such as Delta," said Duncan Biggins, Managing Director of BG Controls. "The award is a special achievement and is testament to the hard work carried out by our engineering teams."

Kurt Graves, Delta's International Business Manager, adds:
"BG Controls has quickly and successfully adopted the Delta product range and delivered excellent customer service. It is a deserved winner of the New Partner award and I'm sure the business will continue to thrive through its partnership with Delta."
