NEWS RELEASE 26.10.10

BG Controls wins two top Chamber of Commerce Awards

Leading building controls specialist BG Controls has scored a double whammy at this year's Barnsley & Rotherham Business Awards and has been awarded the 'Business Growth Award' and the 'Excellence in Manufacturing Award'.

The Awards, run by the Chamber of Commerce, saw the cream of South Yorkshire firms doing battle for 10 prestigious prizes. This year's winners were announced at a black-tie award ceremony hosted by BBC's Look North co-presenter Harry Gration at Rotherham's Magna Centre this month.

BG Controls beat off stiff competition from two other finalists in each category to secure the highly coveted awards, and was the only company to win two awards on the night.

BG's Managing Director Duncan Biggins picked up the 'Business Growth Award' at the event. "We are thrilled to have won this award in such tough economic

conditions," says Duncan. "BG has continued to go from strength-to-strength this year and has seen a massive incremental growth of the business. This is due to the dedication and hard work of all the team along with the expertise and excellent levels of customer service they provide. We

pride ourselves on being a 'one stop shop' and offer our customers a complete integrated system solution."

A major competitor to the large corporations, the company has demonstrated its knowledge on difficult jobs and excellent service to its customers via service and maintenance contracts for Building Management Systems (BMS).

The company has recorded a whopping 700% growth in the last five years.

BG's Workshop Manager Dave Gabbitass received the 'Excellence in Manufacturing Award' at the ceremony. "It's great to have won this award," comments Dave. "As we have our own on-site panel workshop, we can offer superior, custom-built, electrical panels to suit our clients' individual needs at a low cost. Our panel workshop has a quick turnaround time and in all these years, we've never missed a delivery date."

With one of the largest BMS panel-manufacturing workforces in the country, BG Controls provides a flexible service that can respond to market demands.

Duncan concludes, "It's a great achievement to have won two of the top awards and receive this recognition. I would like to thank the entire team at BG Controls for their dedication and hard work."
